## LOCAL NEWS.

If you see it in the Townsman, it's news to be relied upon; if it is news, and so, you'll see it in the Townsman.

Charles Warden of Wakefield's market is enjoying his vacation this week.

Miss Lizzie J. Lamont, of the Andover Press, is enjoying a two weeks' vacation.

John May has returned from his vacation part of which he spent in Vermont.

Smith & Manning have had a gate constructed to separate their stable yard from the driveway.

Charles Donovan and Miss Margaret C. Donovan rode their bicycles to Lynn beach last Sunday.

B. F. Holt lost another horse Sunday by strangulation at Foster's pond. He probably fell-tightening the halter.

The Andover baseball club won from the South Ends at Lawrence, last Saturday afternoon by a score of 14 to 0.

About twenty people from town attended the Ballardvale Congregational church picnic at Lynn beach, Tuesday.

The Degree of Honor lodge have made plans for a moon-light barge ride to Haggetts pond for Wednesday evening, August 23.

John Craig, who has been employed this summer in a hotel in Quebec, Canada, has been spending a few days at home.

Charles Sprague Smith and Edwin Bartlett Smith, of New York city, sons of Rev. Charles Smith, a former pastor of the South church were in town Wednesday.

Mr. and Mrs. George Torr and Mrs. Fiske returned Monday from a tour which included the White Mountains and Franconia Notch, Poland Springs and Old Orchard beach.

W. D. Smith, son of Jos. W. Smith is spending the week at Fort Rodman, New Bedford. He is a member of Battery K, 1st Regiment Heavy Artillery M. V. M., now on tour of duty.

Local contractors are figuring on plans for the construction of a small cottage, Queen Anne style of architecture, which Joshua Milner is about to erect on South Main Street near the residence of the late Charles Abbott.

Many people from town went to East Boxford, Wednesday afternoon to visit the cadets' camp. It was Governor's day, and His Excellency Roger Wolcott was present to inspect the young soldiers.

Thomas Malone of the Andover baseball team while practising Saturday collided with James Greene and split his forehead above the right eye. Dr. Torrey dressed the wound, taking six stitches.

Alexander Dick, Jr., of Cuba Street, a student at Oberlin college and who has been sick with typhoid fever, has recovered. He arrived home the first of the week to remain the latter part of his vacation.

The marriage is announced of Miss Honoree Frederique Jenning to Herbert Baldwin Foster, by Rev. C. F. Fletcher. The wedding took place on July 4 at Patzcuaro, Michoacan, Mexico. The bride is a niece of Mrs. Lucille Deschanel. Mr. and Mrs. Foster are now in California.

The wisdom and generosity of the first mayor of Boston will be manifested when the old statue of General Cass is replaced in the Public Garden by a new and really artistic statue in bronze at the expense of the Phillips fund. John Phillips was of our Andover stock and a pupil in Phillips Academy at the very beginning in 1778.

Over fifty people called at the home of Mrs. Helen E. Carruth on East Chestnut Street last Tuesday evening to see the night-blooming cereus which put forth two beautiful blossoms that evening. On Wednesday evening three more blossoms unfolded their very fragrant beauty to the admiring gaze of many more visitors.

Someone succeeded in securing a small sum of money from T. E. Rhodes bakery on Main Street last Sunday about noon and may have taken other things, such as candy and cigars. The store was opened in the morning during the usual hours but when Mr. Rhodes closed up to go to his dinner he neglected to fasten the door so that a possible customer entered and finding no one about helped himself to what small change there was in the tills, amounting to between \$3 and \$4.

A number of young people rode to Haggetts pond on their bicycles last Tuesday evening and spent several hours pleasantly in boating by moonlight and in serenading the campers. At Lake View Lodge, Mr. Smith burned red fire and displayed roman candles. The party included Misses Gertrude and Ruby Jackson, Alice and Mary Cutts, Nellie Russell, Mary Scott, Addie Cox, Jennie Gordon, Susie Wheeler, Annie Buchan, and Messrs. David and James May, William and David Cutts, Arthur Jackson, Walter Holt, Thomas Lunan, John Angus and George Carter.

Robert Lindsay of T. J. Farmer's market, is taking his vacation this week.

The iron doors for the new vaults at the Town House have been placed in position.

Dr. and Mrs. C. W. Scott spent the day Wednesday, with Mr. and Mrs. F. E. Gleason at Salem Willows.

Andover, Tewksbury and Dracut granges will hold a union picnic at Haggetts pond on Aug. 24.

Mrs. George Saunders and son George, and Mrs. Barnett Rogers and child have returned from a week's stay at Salisbury beach.

Mrs. E. W. Pitman and daughter, Ernestine, have returned from Clifton where they have been spending the past month.

Walter Holt, of Smith & Manning's store, rode down to Boxford, Wednesday afternoon, to witness the dress parade and see the Governor.

A number of Andover people will witness the illuminated water carnival of the North Andover Country Club at Lake Cochichewick, to-morrow evening.

Work on the new state road is progressing rapidly under the careful oversight of Superintendent Lovejoy. He hopes to have it finished early this fall.

Mr. and Mrs. William H. Higgins and son William, have been spending several days in camp at "Rockhurst," J. H. Campion's summer home at Haggetts Pond.

Senator Sargent has sent to the Townsman office, a number of copies of the report of the Department of Agriculture. Any farmer may have one by calling at the Townsman office.

John H. Grout, United States consul at Malta is spending a few days with his brother at the latter's home on Walnut avenue. Consul Grout's leave of absence expires Oct. 6.

Fred Simonds, whose leg was badly broken by a fall from his wagon the first of the summer, has just returned from the Lawrence General Hospital where he has been confined since he was injured.

The camp grounds at East Boxford, where the Salem Cadets are located this week, has acted like lodestone toward many of the Andover people. A number went down Thursday afternoon as well as Wednesday.

Er J. Rowe, one of the best painters and decorators in the vicinity, is now engaged in superintending some extensive repairs which are being made on the Sloan estate at Lenox, to which place he makes weekly trips.

Considerable difference is noticeable between the concrete walk on the east and west sides of High street. On the east the walk is full of inequalities and hollows, while on the west side, laid by Bailey & Chase this summer, scarcely a depression can be found.

The return game of cricket with the Merrimack of Lawrence will be played there tomorrow afternoon. The local team will be nearly all junior players and is as follows: D. F. Bruce, Capt.; A. Ritchie, D. O'Connell, D. Coutts, J. Kydd, J. Poland, W. Mathew, W. MacDermitt, W. S. Rhodes, J. C. Angus, W. Haddon.

A basket of Barbanks plums, with the compliments of Henry K. Flint of the "Linden Farm" on Porter Street, would seem to make up almost a complete variety of fruits raised by our Andover farmers. When one says that the plums were large and luscious and on a par for merit with the raspberries, for which the Linden Farm has been famous, sufficient praise has been given.

The Whittier Club is to hold a tennis tournament to select the best players as representatives to meet Ballardvale in the Labor day tournament with the latter association. Two of the preliminary contests have been settled. In the match between James Saunders and John Riley, Saunders won two straight sets, 6-4, 6-1. F. H. Ladd defeated Thomas M. Lunan 6-0, 6-0. If the court is in condition for play Saturday, several more matches will be played.

Leon G. Saunders, of this place, C. E. Chapman, first baseman and E. A. Jones, third baseman on the P. A. '98 nine, of Franklin, N. H., are at North Woodstock, where they are playing ball on one of the mountain nines. All three attended the full dress hop at the Alpine House, Thursday evening, Tuesday, Saunders pitched a great game of ball for North Woodstock against Maplewood, the for- winning 1-0. The latter team contained many of the Newtowne A. C. players.

There is a report that several well known football players from the smaller preparatory schools are planning to attend Phillips Andover Academy this fall. It is also said that one or two of the Carlisle Indian school boys are coming here. This is good news, if true, as the majority of last year's team do not return in the fall. Quarterback Howard and Center Newton will leave places hard to fill with men equal to them in ability. There were, however, many good substitutes on the team last year who will be in school again this year.

## Summer Saunterers.

T. J. O'Brien of New York is at home for a visit.

Mr. and Mrs. David Shaw are summering at Clifton.

Fred W. Higgins is down in Maine attending the races this week.

Lulu Collins has accepted a position as stenographer in Boston.

Miss Nellie Russell visited friends in North Billerica last Sunday.

Miss Julia Shepard of Elm street is visiting in Lowell and Taunton.

Miss Jennie Birnie has returned from a six weeks' visit in Detroit, Mich.

Mrs. Gertrude S. Nicholson and George Miller have gone to New Brunswick.

Mrs. M. A. Richards has returned from her vacation spent at Marblehead Neck.

Abbott Irving and family went to Salisbury beach, Tuesday for a week's outing.

William McCoy of Miller's Falls is visiting at the home of Mrs. Charles Wagstaff.

Mrs. Matthew S. McCurdy visited friends in Kennebunkport, Me., this week.

Mrs. E. R. Barton and children have been spending several days at Popham beach.

Thomas Burns of Maplewood is visiting with his mother and brothers on Summer street.

Letter-carrier Joseph H. Blunt enjoyed a portion of his vacation at Marion, Mass.

Miss Ellen J. Abbott and Miss H. E. Giddings are soon to make a two weeks' visit at Mt. Vernon, N. H.

Edward Greenwood, clerk at O. F. Chase's news stand, spent Tuesday at Lynn beach this week.

Rev. C. C. Carpenter and Matthew S. McCurdy enjoyed an outing at Mouse Island, Me., recently.

Roy Lindsay has returned from Kennebunkport where he has been playing in the Parker-house orchestra.

Miss Katherine Barnett, of Chestnut Street, is spending the week with Mrs. John N. Cole at York beach.

Jack and Lyman Belknap have returned from an outing of several weeks at Hancock Point, Maine.

The Misses Susie Jones, M. Winnie Burr and Lucy C. Mason have been spending this week at Northfield.

G. W. Macdonald of the Andover Press, and his wife and children are enjoying a ten day's outing in New Hampshire.

Rev. Robert Lindsay and family of Geneva, Ohio, are visiting at the former's home in town, among his home people.

Colver J. Stone, Perley F. Gilbert and Arthur Wilbur have gone to Little Deer Island, Me., for a week's vacation trip.

Miss Maude M. Cole and Mrs. Geo. S. Cole have just returned from York beach where they were entertained by Mr. and Mrs. Cole.

Miss Nellie H. Farmer of the Andover Press, and her brother Chester, will spend the next two weeks at York beach, Maine.

Miss Maude Randall, Miss Florence I. Abbott and Garfield Abbott have returned from an outing at York beach, Me.

Miss Susie Ryan of Milford, Mass., who has been visiting Miss Jennie Maroonney for the past month, returns home to-morrow.

Mr. and Mrs. Fred N. Manning and son of Braintree, will visit at the residence of E. S. Ricker on Phillips Street, the coming week.

Mrs. Darius Richardson and Mrs. Helen E. Carruth spent last Sunday with Tom and Gus Remington at their pleasant home in Brookline.

Miss M. D. McLeod of Watertown, a former teacher at the Indian Ridge school now teaching at Hyannis, is visiting several of her many friends in town.

Miss Annie J. Collins, book-keeper for W. H. Welch, and Miss Katherine Maroonney left Monday for Old Orchard beach where they will spend the week.

Alexander Dundas is spending his vacation this week at Hampton beach, stopping at Batchelder's. He made the trip by wheel last Sunday accompanied by H. F. Chase.

Miss Nellie Russell, of T. A. Holt & Company's store, commences a two week's vacation to-morrow a portion of which will be spent at Hyde Park, Quincy and Boston.

J. Lyman and Jack Belknap left today for Concord, N. H., where they will join a friend, Mr. Hillman of that place, and will start for Berlin Falls, Me. They expect to be gone a month or more on a hunting, canoeing and fishing trip through the lakes of Maine to the Canada line.

## News from Alaska.

The following is an extract from a letter from George F. Butler of Expedition No. 4, written to his wife residing in Winchester, Mass. Mrs. Butler has given permission to use the contents of the letter pertaining to the Klondike and Boston Gold Mining and Mfg. Co. (see adv. in another column) the success of the expedition, etc. The following is a true copy of same:

Tyoonak, Alaska, March 10, 1899. I have not up to the present time given my opinion regarding a man's prospects of success in this country, simply because I did not wish to jump at conclusions too rapidly. One must necessarily winter as well as summer in a new place before he can form any correct idea. During last summer we experienced some hardships, and did a lot of hard travelling, but nothing can be accomplished in any country without an effort. Our chief annoyance was mosquitoes, but that is only for a period of six weeks. We had beautiful weather all summer, just a few warm rains and they were almost always at night. We were liberally provided with plenty of food, and together with the fish and game which are found here in abundance, we got along very comfortably. Five different species of bear are found here, besides moose, caribou, mountain sheep and different fur-bearing animals. Birds are plentiful, including grouse, partridges, ducks, geese and many others. The rivers teem with fish. The scenery is beautiful on all sides. Mt. McKinley is on one side of us, over 19,000 feet above the sea level; on another is an active but very beautiful volcano which looks very beautiful by night. Time and space will not allow me to mention all the attractions of this country.

Now as regards our work. On the whole I think last summer we did a very good summer's work, and accomplished more than any company who preceded us. To begin with we have in our possession over 500 acres of land situated on different rivers in the very richest mining sections of Alaska. A great number of these claims showing signs of being very rich considering what little prospecting we had time and opportunity to do. Most of the gold found is coarse and easy to save and of the best quality. One of these claims now we could sell for \$50,000, but from every indication we believe them to be worth half a million at the very least. As far as the mines are concerned we are confident of success. Not only our mines alone but our townsite we have founded here should in itself (if properly handled) be a big paying piece of property to the company, being situated as it is at the head of navigation, and the only spot possible where boats and vessels can land with safety. The government trail also goes through it. We now consider the worst part done. These last few months have been spent

prospecting and laying out claims, making our stakes secure, which left us little time to work on the claims except what was really necessary to hold them. Besides we had to build cabins and prepare for winter. We are only waiting now for the snow to harden so we can send our goods to the mines. The cabins are built, sluice boxes and all other appurtenances being ready, we expect to do a big summer's work and take out lots of gold.

The two things a man needs now to make this a success are "sand" and plenty of backbone, and we will come out all right, for there is plenty of gold here when it is located. We have been making tents and are now making a stove and when they are completed we will be all ready for the trail. It will probably take us three weeks to get in.

You will probably hear plenty of rumors about the dreadful cold weather here; but they are from people who have never been here and so do not know anything about it. Until January I had not worn a cap nor a coat and only put on my sweater when I went out hunting, and none of the days were so cold but that a man could sweat freely if working. Our average winter weather was 35 below, although some days were down to 40. Now you may think that very cold, but we did not mind it any more than we should at freezing at home, because the atmosphere is dry and not liable to sudden changes. I consider it one of the healthiest countries in the world. None of us have had even a cold since being here, and it has cured me of rheumatism. My weight is now 18 pounds, a gain of 18 pounds since leaving home.

I should feel very well satisfied over the prospect of staying here for five years; it is exactly what I should like, but I do not think at present that it will be necessary.

You asked me if I thought it wise to invest in any more of the stock of the Klondike & Boston Gold Mining & Mfg. Co. My advice is to invest by all means as it is one of the safest investments on the market. Shares now selling for \$1.00 will in all probability be up to \$12 before the close of 1899. Now I have stated the facts of the case just as they stand and you may judge for yourself. I am very happy I came here, and in my opinion the returns will be something well worth the time and patience bestowed on it.

## A NARROW ESCAPE.

Thankful words written by Mrs. Ada E. Hart, of Groton, S. D. "Was taken with a bad cold which settled on my lungs; cough set in and finally settled in consumption. Four doctors gave me up, saying I could live but a short time. I gave myself up to my Saviour, determined if I could not stay with my friends on earth, I would meet my absent ones above. My husband was advised to get Dr. King's New Discovery for Consumption, Coughs and Colds. I gave it a trial, took in all eight bottles. It has cured me, and thank God, I am saved and am now a well and healthy woman." Trial bottles free at Arthur Bliss Drug Store. Regular size 50c. and \$1.00. Guaranteed or price refunded.

An old stone post which was a landmark in Milford, Mass., more than a century ago, was recently discovered by Selectman Cooke in the rear of Ide's blacksmith shop, where it is understood to have been for 35 or more years. It is a three-cornered mile post about five feet long, and bears the date 1773. It is supposed to have been originally set up near the old Daniels tavern in what is now the Plains section on the Holliston road. Over the date and under an arrow pointing eastward are the words "To Boston 34 miles," the spelling being after the custom of 125 years ago.

Inhabitants of the coast towns of England are alarmed over the encroachments of the sea. The pretty little village of Dunwich was formerly a large town, and held no small place among the commercial cities of the kingdom. All its churches and monastic institutions have been washed away by the sea and a large forest has followed the buildings.

## Diversion on a Street Car.

It was on a well-filled street car on one of the suburban railways while returning to the city at a late hour in the night. Among the passengers was a portly individual, reclining ponderously on a corner seat, peacefully slumbering off the effects of numerous alcoholic potations, and seemingly oblivious to his surroundings.

There was also a party of two men and their feminine companions who had evidently been enjoying a jollification of the spirituous kind similar to the old sport in the corner; though in a much more moderate manner. The men, one of whom wore the insignia of the rank of a major, and the other that of a lieutenant, were much to the disgust of a well-dressed young man in the seat behind them, and contrary to all rules and regulations of the car company, having an especially hilarious time over a large, black, portentous appearing bottle, which emitted to the summer breeze the effluvia peculiar to a certain exhilarating liquid refreshment.

All went well until the major, a little fellow, whose chief characteristic was a beautiful full-blossomed nose, turned to the young man in the rear and in a loud, though thick voice said: "Shay, (hic) wash de matter with yer (hic) hashze a drinkin' (hic)."

"This is perfectly disgusting," remarked the young man, looking in vain for the conductor, who, with customary wisdom, had retired to the rear car.

"Shay, if yer donsh like it (hic) yer know wash yer can do (hic). Yer big—" Biff! The young man's sturdy "right" shot straight from his shoulder, and the major assumed a most unbecoming sitting posture with a fast rising lump over his eye. The girls screamed and every one arose. What might have come of the affair no one will ever know, for just then the slumbering bacchanalian awoke as though from a nightmare of the D. T. description, and mistaking the confusion, leaped upon the seat with wildly waving arms, assumed a staggering, though threatening posture, and, with defiance gleaming in his manly eye, shouted in a deep terrifying double-bass voice "Who's going to put me off? Who's going to put me off?" Everyone laughed, and further hostilities were prevented.—Washington Post.

You assume no risk when you buy Chamberlain's Colic, Cholera and Diarrhoea Remedy. Arthur Bliss, Andover, and C. H. # Copper Shares.

## Safest Investment, Largest Dividends.

A portion of the full paid and non-assessable capital stock of the Boston & Texas Copper Company is offered for sale at Five Dollars per share (par \$10 for Treasury purposes), and is recommended as a safe and highly promising investment.

The company controls twelve thousand acres of rich copper land in North Texas which is also valuable for farming and town site purposes. The tract is some 10 miles long and about three miles wide. It is equivalent in size to five hundred ordinary mining claims.

The property has been developed sufficiently to begin producing at once, large amounts of the richest copper ore (40 to 70 per cent.) taken out and marketed, and inexhaustible quantities of copper marl and clay running from 8 to 15 per cent. copper found. (Calumet and Hecla and other great dividend payers are working on 1 to 3 per cent. ore.)

The property is within 12 miles of a railroad and fuel and water are available. The ores and marl are on the surface and a few feet down, and can be mined and converted into copper cheaper than any other deposits in America. Copper will be produced on the ground and a plant of moderate cost will treat 300 to 500 tons of ore and material per day, and according to engineers' estimates earn \$3,000 to \$5,000 per day net, with copper at 15 cts per pound. It is now 18 cts. per pound.

The property has a historical reputation and a record in the State Geological Reports. It has been examined and reported upon by the highest engineering, geological and expert authorities, and its merit and value are established beyond all question. It is not an experiment, nor its value speculative, they are proven and demonstrated.

## From Report of Prof. Wm. DeRyee, former State Chemist of Texas.

"Such numerous outcrops of copper ore have been traced over the summit and sides of those hills that out of 12,000 acres of land which the company own, hardly a 160 acre tract should be found without ore upon the surface.

A cross-cut to the depth of 15 feet was made upon the Isbell lead, and ten hours' work resulted in the raising of 6,000 lbs. of rich copper ore, averaging about 60 per cent. of copper. (Worth \$360, net.)

It is easily smelted and the strata in which it is found can also be more economically excavated than other in which copper ores occur."

## From Report of Prof. W. F. Cummins, former Geologist of Texas.

"In order that I might see the condition of this lode after this amount of work had been done, I employed a few hands and cleaned out the tunnels when I found a lode of copper. This is the disulphate of copper and will yield as high as 70 per cent. of copper. I drove the tunnel twenty feet further into the hill, following the lode. When I had gone about twelve feet I struck another lode of copper eighteen inches east and six inches below the second lode. In three feet more we struck another lode below the second lode. Immediately below the lower sandstone is a stratum of cupiferous marl schists extending the entire width of the tunnel, say four feet, and is probably much wider. This marl will yield about 15 per cent. of copper."

## From Report of Prof. Gustave Westman, Mining Engineer.

"I beg to express my entire satisfaction with and confidence in the report made by Prof. W. F. Cummins.

I only had to remove one foot of earth from the surface on the three spots already mentioned in order to find large deposits bedded into the clay. After washing, this clay was found to contain 35 per cent. of copper ore of same value as above. These ores could of course be taken out and made available at a relatively small expense.

## FROM REPORT OF T. BURTON EVERETT, MINING ENGINEER AND EXPERT.

Hon. EMERY H. LOW, President, and others, Boston, Mass.: "Gentlemen:—There is abundant evidence of rich copper deposits, not only at the mines already opened, but at various other parts of the property, and it is my opinion that this will prove to be one of the exceptionally rich copper-bearing fields of the United States. The ores found in these deposits are immensely rich in copper values and the cupiferous clays that are also found here in immense beds, while not as rich, will undoubtedly prove of great value on account of the cheapness with which they can be mined and reduced.

The mines are accessible at every point; the cost of mining will be very small, as the ore is not in hard formation; and there is no deep work. I have examined the various reports made by others, and confirm them.

"As far as I have been able to investigate, and I have done so carefully, I am of the opinion it is one of the richest copper fields in the country. Very respectfully yours,  
T. BURTON EVERETT, M. E.

Mr. G. H. Savage, Mine Examiner of Butte, Montana, after gaining sample of ore from the property, says: "The ore is the richest in the country. If you have the field you can pay \$1,000,000 dividends per year."

Major F. M. Spaulding, of Boston, and C. F. Crosby, Esq., of Lowell, Mass., who returned June 16th from an examination of the property on behalf of the Company's stockholders and intending investors, report that they found the property as represented and confirm the expert reports. They visited and examined the nine mines and explored the entire property.

The Company is thoroughly organized with substantial business men in the management. It has such extensive acreage of land, rich in copper, and so easily and cheaply mined and converted, that dividends can be earned and paid during the current year. Now is the time to make a safe and profitable investment, and those who take advantage of this opportunity to buy stock at the low price offered will reap the benefit.

Remit by P. O. Order, Registered Letter, Check or Express to Edward B. Robins, Treasurer, Tremont Building, Boston, Mass. Price \$5.00 per Share, Subject to advance.

**BOSTON & TEXAS COPPER CO.**

The cupiferous marl situated below the sandstone, containing 15 per cent. of copper, can be estimated worth at the place at least \$10.00 per ton, net."

## From Report of George F. Rendall, Mining Engineer.

"It is a self-evident fact deducible from every report that on this property large bodies of copper ore exists and that hundreds of tons have been shipped of high grade ore.

That a deposit of this nature can at a very small expense be made to yield handsome profits, from all existing reports, appears not only likely but certain."

## From Report of Francis Arthur Reall, Superintendent.

"This property is all right and there is all the copper you want here. I think it is the best in Texas and it seems to have been selected as such for copper. It is near the top of a water shed and the hills crop out here. I think there is oil here because there is coal. Oil has been found at Corsicana. The property is adapted to general farming purposes which seems to be very profitable here and a town could be laid out on it and a railroad built to Dundee, 12 miles, to great advantage."

## The Great Boom in Copper Shares.

Copper mining has proved the safest and most profitable industry in America, and the largest and most conservative capitalists in the world have recently become large investors in copper stocks.

This company can produce copper as cheaply as any in the world. It is capitalized the lowest of any in proportion to its acreage, and at the price of copper-bearing land in Michigan (\$400 per acre) containing a much less per cent. of copper, has a large value in excess of its low capitalization (\$2,500,000.)

Receipts for ore and assays by the leading chemists and assayers in the country are on file in the company's offices.

The officers and directors of the company are men of the highest standing and business capacity, and include:

Hon. Emery M. Low, manufacturer, mayor of Brockton, Mass., President.  
George W. Russell, Esq., paper manufacturer, Boston, Vice-President.  
Maj. F. M. Spaulding, 2d Vice-President.  
Col. Edward B. Robins, Boston, Treasurer.  
Col. James M. Wheaton, Boston, Secretary.  
Hon. Jas. W. Bennett, Ex-President Erie Telephone Co.

Only a limited amount of the stock will be sold at the price of \$5.00 per share and those wishing to secure shares should act at once. As stated the stock is full paid and non-assessable. As soon as this allotment is sold the price will be advanced.

Amount of land, quantity and quality of ore, cheapness of mining and treatment, nearness to transportation, favorable climate for continuous work the year around, the increasing demand and profit in producing copper considered, the Boston and Texas Copper Company possesses unequalled advantages and affords the best kind of an investment. It can easily earn 50 per cent. per year on the price at which the stock is here offered.

## The Malay Language

With the college commencements over and the academic year of 1899 fully closed, it is time to direct attention to a branch of learning which, from an American point of view, has but recently acquired practical importance. All American universities teach foreign tongues. No longer content to give instruction in Greek and Latin, they pay heed to many modern languages. In the list is Spanish, a knowledge of which would be of the greater use now to many Americans who before the last war had no occasion to regret their ignorance of it. But there is still another language that should be taught at every American seat of learning, and that is Malay, the mother tongue of millions of people who came beneath our flag by virtue of the treaty of Paris.

The Malay language is the vernacular of more than 40 million people. Prof. R. Clyde Ford of Albion college, pronounces it "soft and melodious, rich in expression, poetical in idiom and simple in construction." It has another feature which ought to commend it to the student—it is almost without grammar. "The vocabulary," says Prof. Ford, "is full of subtle distinctions and fine gradations of thought and meaning." It is written in the Arabic characters, but it had an alphabet of its own before the Mahometan invasion and conquest of six or seven centuries ago. In explanation of the statement that the language is almost grammarless, it is stated by the Albion professor that the Malay language has "no proper articles, and its substantives may singular or plural, and entirely genderless." All this may be rather confusing to a novice, but we have the assurance of Prof. Ford that the language is "easily learned, and has much to repay those who do it." It certainly must have many surprises.

Several examples are given of the poetic character of the language. Thus, a friend is a "sharer of your joys and sorrows"; interest is "the air is money"; strolling to take the air is "eating wind"; a coward is "a duck without spurs"; and to be drunk is to "ride the green horse."

As nearly every Malay is quite content to speak his native tongue, it does not know how to write, it might answer every purpose to employ the English alphabet in the text-books for its study. For the purposes of communication it would be quite immaterial what alphabet was employed. For instance, if a Malay dealer in agricultural implements were asked the price of a plow, it would be the same to him whether the fact that "hala," the word for plow, was learned from English or Arabic characters, provided only the right pronunciation was given to it. Which of the universities will be the first to enter this new field of learning?

A POPULAR REPUTATION.—The number of persons who visit Ocean Park, Old Orchard, increases each year proclaiming in an emphatic manner that that delightful resort is one of the most sought regions on the coast. Why shouldn't such a sentiment prevail when one considers its environs. The camp meeting grove is a charming place and short walk brings us to the bathing beach which is fully eight miles long and as wide as can be. The Old Orchard beach railroad extends along the shore for several miles bringing every part of the beach into communication with Ocean Park. Then there is the Ocean Pier, a marvelous piece of engineering and bridge building, extending far out into the ocean. The broad walk and casino is ever cooled by ocean breezes.

Beginning on August 19th and lasting until the 31st, there will be a grand school convention, an assembly at Ocean Park, for which event the Boston & Maine railroad has arranged low rate excursion tickets from many of its stations.

## THE GIPSY MOTH.

How it was Propagated and Reached Georgetown.

The gypsy moth committee has solved a mystery. The work of cleaning out the colony of gypsy moths recently discovered in Georgetown is practically completed, all that remains being a little scouting for a mile around the four acres of woodland burned as the easiest way of destroying the pests.

This work of destruction was witnessed by scores of hitherto skeptical farmers, who gathered from miles away to see the pest whose actual existence they had doubted.

The mystery was as to the way the moths reached Georgetown without infesting any of the territory between that town and the Middlesex Fells. The immense size of the colony indicated that it must have been at least six years old. The location was near the Bowline line, in a dense wood with no houses near. For a time there were grave suspicions that some miscreant had carried a tomato can full of caterpillars to the spot and salted it down.

But the genealogical expert of the committee went to work and soon discovered that a Melrose man married his wife in Georgetown. The father of the Melrose man keeps a pigery, and that pigery has been the despair of the gypsy moth hunters for years, for the oceria dispar dearly loves filth.

Investigation disclosed that the Melrose man was a collector of hens. He would take a team, travel through northern Middlesex and Essex, brings the hens back to the Melrose headquarters, and kills and plucks them far the market.

But why should he, if he did, go near the Georgetown woods? The hen collector was questioned and informed the gypsy moth investigator that within a year or two there was a farm-house there, that it had been destroyed by fire, but that previous to the time he had visited the place for ten years, leaving his team tied for a long time in front of the house.

The members of the gypsy moth committee have no doubt that the insects were transported from Melrose to Georgetown at different times in the hen wagon. The aged farmer who owns the woods destroyed was very public-spirited about it. He has a right to recover their value in the courts, but undoubtedly the committee will be able to make a settlement with him without litigation.

## A HUGE STEEL PLANT.

SYDNEY, B. C., Aug. 16.—Another huge iron and steel work, eclipsing even the Whitney establishment, now being erected at Sydney, will be located at North Sydney.

Information has been received from England that a deal is about to be consummated to merge the Nova Scotia Steel Co., of New Glasgow, N. S., and the General Mining association.

The latter is the oldest coal company in Cape Breton. The directors are Englishmen. Its mines are at North Sydney. A representative of the Nova Scotia Steel Co. has been in England for some time consulting with the directors of the coal company. The new concern's plant at North Sydney will include a ship building plant, steel rail plant and dock.

The company owns iron mines at Belle Isle, N. F., and it is said that 300,000 tons of ore have been sold in Europe for immediate delivery.

The concern will have a capital of \$25,000,000, principally English.

## See and Be Happy.

The twenty-fourth annual Rochester Fair occurs Sept. 12, 13, 14 and 15, 1899, when its brilliant exposition will again capture the plaudits of the public, with a mammoth display from field, garden and orchard, representative exhibits of manufacture and art, horses, cattle, sheep, swine and poultry.

Ten thousand dollars in purses and premiums will be offered this year and there will be three spirited speed contests each day for liberal purses.

A continuous stage show, something going on to please all the time. An elaborate street parade this year, and four bands will furnish music.

Reduced rates on all railroads.

## THE WOOL TRADE.

The "American Wool and Cotton Reporter" will say tomorrow of the wool trade: "The market has slowed up somewhat during the past week, although the volume of business has reached a very good figure. Two factors have been at work. The wool merchant has been busily engaged in receiving, grading and sorting the wool. He has had less time than usual to think about effecting new transactions. On the other hand manufacturers have been more intent upon their vacations than upon enlarging their holdings of the raw material. Traveling salesmen for the wool houses report that in innumerable instances they have been unable to find mill proprietors the latter being away at the seashore or mountains. The buying has lately been largely of a hand-to-mouth character although there have been several instances of transactions of considerable magnitude. Prices continue very firm.

The sales of the week in Boston amounted to 5,366,000 pounds domestic and 130,000 pounds foreign, making a total of 5,496,000 against a total of 6,891,000 for the previous week and a total of 2,566,000 for the corresponding week last year. Sales since January 1, 1899 amount to 175,873,000 pounds, against 74,393,510 pounds last year at this time.

## MENUS FOR A WEEK.

## FOR MONDAY'S BREAKFAST.

Grace was in all her steps, heaven in her eye, In every gesture dignity and love. —John Milton.

BREAKFAST.—Grape Fruit. Lamb Chop. Creamed Potatoes. Fried Eggplant. Tomato and Lettuce Salad. Parker House Rolls. Coffee.

PEACHES.—Peaches from Oklahoma are among the newest things offered in the fruit market. They are not of very good quality, though there is every indication that later arrivals would be improved if allowed to ripen.

## THREE MEALS FOR TUESDAY.

And how we spun  
A shroud of talk to hide us from the sun  
Of this familiar life.

BREAKFAST.—Melons. Poached Eggs. Bacon. Creamed Potatoes. Water Cress. Coffee.

SUPPER.—Iced Consomme. Crab Salad. Cold Ham. Olives. Pickles. Ginger Cordial. Fruit.

DINNER.—Broiled Sirloin Steak. Creamed Bermuda Onions. Cold Asparagus. Lettuce Salad. Cheese. Watermelon.

CRAB SALAD.—One dozen crabs, half pint of mayonnaise, two heads of lettuce. Put the crabs in cold water, add a tablespoonful of salt, stand the kettle over a brisk fire and boil 30 minutes; take out to cool. When cold, pick out the meat and put away until wanted. Wash and dry lettuce carefully and make a mayonnaise. Stand all away on the ice until wanted. When ready to serve, mix the crab meat and mayonnaise lightly together, garnish the dish with lettuce leaves, place the mixture in the center of the dish and serve. Of this salad may be served in the back shell of the crabs, garnished with lettuce leaves.

## WEDNESDAY'S DINNER AND TEA.

What'er we do is less than what we are,  
Where'er we move the horizon is far. —Anon.

DINNER.—Chicken Consomme, Iced. Fillet of Beef in Jelly. Cauliflower, Drained Butter Sauce. Lettuce Salad. Stuffed Tomatoes. Frozen Custard.

TEA.—Lobster, Newburg. Lettuce. French Rolls. Cold Tongue. Tomato Pickles. Cherry Souffle. Tea with Lemon.

FILLET OF BEEF IN JELLY.—Make apple jelly; stand away to cool. Trim and lard the fillet. Stand one onion and one small carrot (sliced) in the bottom of a baking pan, add one bay leaf and one teaspoonful of celery seed and a sprig of parsley. Place fillet on top of these, add one pint of stock and one teaspoonful of salt, cover the pan with another of same size and bake in quick oven for three-quarters of an hour. When done, stand aside to cool. Put layer of jelly in bottom of a mold large enough to hold the fillet, then place it on the ice to cool. When congealed and firm, place fillet on it, lard side downward. Now fill the mold with remaining jelly, which must entirely cover the fillet and about three-quarters of an inch above it; stand whole in a cold place over night or for several hours. The fillet must not touch the mold, but be perfectly covered with the jelly. When cold, turn out on a cold meat dish. Garnish with hard boiled eggs and water cress, quarters of lemon. Bearnaise sauce should be served with it.

## WHAT TO EAT THURSDAY.

Unwinding charms with edge resistless fall,  
And she who means no mischief does it all.

DINNER.—Braised Beef. Escaloped Potatoes. Sweet Corn. Asparagus on Toast. Lettuce and Tomato Salad. Cheese. Tomato Pickles. Frozen Peaches. White Cake. Iced Coffee.

TEA.—Summer Sandwiches. Grilled Sardines. Water Cress Salad. Rolls. Peach Omelet. Beer or Ginger Ale.

MONTSIEU PUDDING.—Two quarts of good cream, one cup of granulated sugar, yolks of six eggs, one tablespoonful of vanilla, one pint of strawberry water ice. Put one pint of cream to boil in a farina boiler, beat the yolks and sugar together till light, then add the water ice, cover with cream and stir until it thickens (about one minute). Take from fire and add the remaining pint of cream and vanilla; let stand and cool and freeze. When frozen, pack into a round or oval mold, leaving a well in the center. Fill this mold with strawberry water ice, cover it over with some of the pudding you have taken out, pack in salt and ice and let stand until wanted (not less than two hours).

## FOR FRIDAY'S MEALS.

Speak, Philias, speak and say,  
Does success ever wait on you?  
Have you never failed? Is your work all play?  
Do you find nothing hard to do?

BREAKFAST.—Fruit. Boiled Rice. Fried Smelts. Bacon. Water Cress Salad. Rice Wafer. Coffee.

DINNER.—Clam Chowder. Baked Bluefish. Potatoes au Gratin. Cold Cauliflower. Mayonnaise Sauce. Lettuce Salad. Rice Pudding. Claret Cup.

TEA.—Salmon Sandwiches. Cold Slaw. Cottage Cheese. Toasted Cheese. Tomato Pickles. Tea, Lemon.

CROQUANTS OF PEACHES.—Eighteen nice, ripe peaches, one pound of sugar, one pint of small strawberries, half pint of water, when sugar and water together until it is brittle, when dropped in cold water—that is, when it begins to boil up in large bubbles, take a little of it on a spoon and drop in cold water. If it snaps in breaking, it is sufficiently boiled. Take it from the fire immediately. Rub a plain two quart mold with melted butter or oil. Have the peaches ready (pared, cut into halves and stoned), the strawberries stemmed (if fresh). Put a piece of peach on a wooden shaver, dip it in the sirup, then dip a berry in the sirup and place in the center of the peach where the stone was taken out, then press it against the side of the mold and so continue until the mold is lined; then stand away in a cold place to harden. When hard, fill with chocolate rum and stand away in cold place to harden. When ready to serve, put cream and sugar against the side of the mold and so continue until the mold is lined; then carefully lift it off. This dish is both beautiful and good.

## MENUS FOR SATURDAY AND SUNDAY.

Ah, my friend, every road that leads  
To the friend, with the hard gains;  
Nothing entirely succeeds,  
To hope's good nobody wins. —Phidias.

SATURDAY'S BREAKFAST.—Melons. Wheat. Corn Omelet. Bacon. Dry Toast. Water Cress Salad. Marmalade. Coffee.

SUNDAY'S DINNER.—Cream of Lima Beans. Roast of Spring Lamb. Mint Sauce. Current Jelly. New Potatoes in Cream. Cauliflower. Cold Asparagus. French Dressing. Cottage Cheese. Montrose Pudding. Black Coffee. Fruit.

SUNDAY'S TEA.—Broiled Squab. Bacon. Lettuce Sandwiches. Lemonade.

CLARET SAUCE.—Take half red wine and half water, with sugar to sweeten and spice to taste, the grated rind of a lemon, the juice of one fourth and a handful of raisins (plumped, seeded and chopped). Thicken with flour or cornstarch.

## Good Cookery.

## LUNCHEON FOR A HOT DAY.

Pressed Veal.  
Lemon Jelly. Tomato and Cucumber Salad.  
Vanilla Ice Cream. White Mountain Cake.  
Lemonade.

Everything about this luncheon should be suggestive of coolness, as it is planned for one of our hottest days. To this end darken the dining-room. Have the room decorated with ferns growing in pots, and with bunches of ferns gathered from the woods. Place upon the center of the table a low dish of the feathery maiden-hair. Have at each plate glasses of chilled ice, over which will be poured whatever drink may be served—either, milk, tea or lemonade. The drinks may be ice-cold, but the sight of the ice in the glasses will make them more tempting than as though the cold were not visible. Ferns are always suggestive of the cool shady nooks of the woods, and are especially suitable for hot weather decorations.

## PRESSED VEAL.

Boil a shoulder of veal until every bit of skin and gristle can be removed, saving all the very smallest bits of meat. It is a tedious task, but well repaid the pains taken. Place all the meat thus collected while warm into a chopping bowl, and season well with salt, pepper and butter. Chop quite fine and press firmly into any dish that will give the shape of a loaf of cake when it is cold. Set on the ice over night. When ready to serve it, slip a knife around an edge of the meat, and turn out on a platter. With a very sharp knife slice very thin, still leaving it in the loaf shape. Place it on a bed of lettuce leaves garnished with the small radishes in red and white. The radishes may be cut in fancy shapes.

## LEMON JELLY.

For making the jelly, follow the directions given on the package of gelatine used. After making, set away on the ice for several hours to harden, using more gelatine accordingly for hot weather than for cold. When ready to serve, cut the solid gelatine into cubes and pile carefully in small glass dishes at each plate. This is to be served with meat.

TOMATO AND CUCUMBER SALAD.—Take the tomatoes and cucumbers from the ice, and cut them into small pieces and put them into a glass dish in alternate layers, and serve with any dressing preferred, either mayonnaise or French.

## A GOOD FRENCH DRESSING.

One-half teaspoonful salt, a little pepper, two tablespoonfuls of vinegar and four tablespoonfuls olive oil. Mix together the dry ingredients, add the oil slowly, stirring thoroughly, and then the vinegar, still stirring all thoroughly.

## VANILLA ICE CREAM.

One quart of scalding milk poured slowly over three beaten eggs and two cups of sugar. Return to the fire and cook fifteen minutes in a dish set in boiling water. When cool, add one pint of cream (new, rich milk will be very satisfactory and is better for children) and flavor with vanilla. Freeze in the usual way.

## WHITE MOUNTAIN CAKE.

One cup sugar, one-half cup butter, three eggs, one-half cup milk, two cups of flour, into which is sifted two teaspoonfuls cream of tartar and one teaspoonful soda. Flavor with almond.

## MUSTARD PICKLE.

Take four quarts of vinegar, one cupful of mustard, one tablespoonful of olive oil, one teaspoonful salt, and one-half of a tablespoonful of turmeric powder. Mix together and let stand for a week. Then take 150 small cucumbers, three heads of cauliflower, one quart of small, white onions, one pint of nasturtium pods, three heads of celery and soak over night in strong brine. Steam the vegetables, except the cucumbers, until tender, add the vinegar mixture and let stand for one week. Then put the liquid in a kettle and heat slowly. Mix one cupful of brown sugar and one-half of a cupful of cornstarch with a little of the hot liquid, add it to the contents of the kettle, stir until it is thickened smoothly, and boil 10 minutes, add one-quarter of a teaspoonful of cayenne and pour it over the pickles.

## SPICED PEACHES.

To seven pounds of peaches allow four pounds of sugar, two ounces of stick cinnamon, one ounce of whole cloves and one pint of vinegar. Rub the down off all the peaches and put them in a large stone jar with the spices tied in bags. Boil the vinegar and sugar together for five minutes and pour it over the peaches and spice. Do this for three days in succession, then put all in a kettle and cook slowly until the peaches are tender.

## COLD MEAT SALAD.

Free the meat from skin and bone and cut it into small dice. For each pint make a French dressing with four tablespoonfuls of olive oil, one tablespoonful of plain or tarragon vinegar, one-half of a teaspoonful salt, and one-quarter of a teaspoonful of white pepper, and with it thoroughly marinate the meat. Set aside in a cold place for an hour or more that it may be thoroughly impregnated with the dressing. If there are any cold vegetables pour boiling water on them to rinse off any previous sauce or dressing, drain and marinate separately with the French dressing. Arrange a bed of lettuce or other green salad on a platter, pour on it the meat and garnish with the vegetables. A few nasturtium leaves will add piquancy to the salad, or a little water cress may be used with the lettuce, the combination depending largely upon the meat on hand and the way in which it was cooked. Boiled meat usually needs more in the way of seasoning than roast meat; a few drops of onion juice or a teaspoonful of finely chopped chives is frequently a decided addition.

## CHOW CHOW.

One head of cabbage cut fine, two quarts of small string beans, one quart of lima beans, one dozen cucumbers, one quart of small white onions, eight peppers, cut fine, one-quarter of a pound of mustard seed, one-half of a pound of ground mustard, two quarts of strong cider vinegar, one-half of a cupful of salt. Peel and cut up the cucumbers, mix with the cabbage and sprinkle over them the salt; let stand one hour, then drain. Mix the ground mustard with a little of the vinegar, and scald the remainder of the vinegar; when hot, add the mixed mustard and let it simmer 10 minutes. Partly cook the vegetables, with the exception of the cabbage, cucumbers and peppers. When this is done and the salted vegetables drained, put all together in the hot vinegar, and boil five minutes.

## EGG DUMPLING FOR STEW OR SOUP.

Put one tablespoonful of butter and one-half of a cupful of milk in a sauce pan and heat to a boiling point. Add quickly one-half of a cupful of dry flour and stir until the mixture becomes a thick, smooth paste; take from the fire and set aside until quite cool. Add the beaten yolks of two eggs, one-quarter of a teaspoonful of salt and one tablespoonful of finely chopped parsley and beat until thoroughly mixed. Add gradually the whites of the eggs whipped to a stiff froth. Drop small teaspoonfuls of this mixture into boiling broth or salted water, boil and turn until done—about five minutes. Drain and serve as a garnish to a stew or fricassee, or in a soup.

## OYSTER STEW.

One quart of oysters, put in a steamer, with their own liquor and cooked till the edges frill, then add one quart of hot milk. Let it scald up once, then turn into a tureen containing salt, pepper and a generous lump of butter.

In proper food is found the means, if you are well, to remain well, and grow stronger and better each day. By the same means, if you are not well, you may become well.

Food is the builder of the body. If the food is impoverished and unnatural, so the body will be. If the food is good, by which is meant a properly cooked food that contains all the properties in correct proportion to nourish all the parts of the body—then the body may be healthy and vigorous. To be healthy and vigorous your food must contain the material that makes teeth, bone, nerve, muscle, brain; also the material for heat and energy.

The trouble is that very few parents understand how to select food containing all these properties, and indeed it would take a long time to learn how to select such food from the almost endless list offered the consumer.

What shall the mother do? She should simplify the diet for the entire family and take only naturally organized food. Such food is the Shredded Whole Wheat Biscuit made of the entire wheat, light and short without adding to or taking anything from it. You have a food in Shredded Wheat Biscuit, therefore, as it was organized in the process of growth.

These biscuits are already baked, already for use, and are made from the whole wheat berry, will overcome indigestion and constipation, and will aid in building, and organizing the body into natural and therefore healthful conditions.

## Possible Town Growth.

The town of Andover is not going to show any very material increase in population in 1900, according to some excellent judges, over that of 1890. In fact, there are not wanting people who think there will be a loss to record.

We do not think that even a fulfillment of the latter possibility would be cause for any serious regret, if all of the town's possibilities had been realized during the past decade, but inasmuch as such is not the case we may as well stop as citizens and consider what is possible in future growth for Andover.

One of the most marked lacks that the town suffers is a town hotel. The mansion house is well run, beautifully located, and surrounded by many attractions, but it is and must necessarily always be, a part of the institutions and maintained primarily for their accommodation.

Beautiful as the "hill" is, there are other parts of the town that offer many attractive features to make pleasant the hotel dwellers' stay, if there were a hotel to stay in. No town in the state offers more varied and charming drives and walks and all other natural features than does Andover, but there is no welcome for the stranger to come in and enjoy it.

Several years ago an effort was made to arouse interest in a hotel scheme, but without success. Other attempts from time to time have also failed but these failures do not need to be a permanent black eye to the project. There is no better improvement possible for the promotion of the town's best growth than to build in some one of the many favorable locations an attractive and high grade hotel; and the men who plan and carry out such a project may be considered public benefactors.

## Editorial Cinders.

Not a season passes without some illustration or other of the short-sighted policy that kept the town from acquiring a strip of land all around the shores of Haggetts pond. A correspondent utters a protest in today's issue, that shows how little protection the town really has against the pollution of its water supply.

There are probably very few of our local citizens not connected with the place itself, who would not refer to the Tyler Rubber Co.'s concern as one of our smaller industries. It will surprise most of our readers then, to be told that more hands are employed at the rubber factory than at any other business place or manufactory in town. 'Tis a growing concern.

Ground broken for another new building at Phillips. That's the kind of good news we like to chronicle. Now if we might only chronicle a start on the Gymnasium!

Town pay day seems to be smoothing out very nicely, but if one employee must be paid by law weekly, why not all?

## Dr. Long Accepts.

The *Stanford Daily Advocate* of last Monday announced as follows, the acceptance of his recent call to the First church of that city, by Dr. W. J. Long:

The formal acceptance by Rev. William J. Long, Ph.D., of Andover, of the call to the pastorate of the First Congregational Church, was read from the pulpit of that church at the service on Sunday morning. The members of the church feel certain that they have made a good choice, and look to a great revival of interest in the church when the new pastor comes here in the autumn. Dr. Long is undoubtedly an able and eloquent preacher, and will be a decided acquisition to the religious activity of the city.

## Sixty Years With One Concern.

David Middleton of Haverhill Street, Frye Village has just completed his 60th year of service with the Smith & Dove Manufacturing Company. It was on the 11th of August, 1839, three days after his arrival in this country and Andover to which place he had come from Brechin, Scotland, expressly to work for the concern, that he began his duties.

Mr. Middleton is now in his 85th year and is still hale and hearty; largely read, well informed on all current topics, he is a most interesting conversationalist. For many years Mr. Middleton was prominent in church and town affairs being a deacon and treasurer of the Free church. He was on the committee which had charge of the erection of the Memorial Hall Library.

His term of sixty years with one concern is almost without a precedent.

## The Engine House Extension.

Work is being pushed ahead rapidly at the engine house on Park Street and will be completed before very long. The extension is eighteen feet wide, running the entire length of the engine house proper. The front half will be one story in height but the rear portion will be two stories. In the upper portion a hay loft will be located.

Down stairs the rear portion will contain a stable and vault. The new extension will be used by the hook and ladder truck which will extend back between the stalls.

The brick wall between the old and new sections has been partially removed allowing free passage from one to the other.

Laborers are also at work erecting an eight foot brick wall with massive granite posts at the gateway to enclose the town land near and adjoining the engine house, which enclosed space will be utilized for the storage of town teams and snow plows.

At the rear of the yard and extending entirely across the same, a covering will be erected to extend forward over the yard twenty-five feet. Gates will be constructed opposite each other, on Park and Barnard Streets. These, with other changes, will cause a much improved appearance at the town property here and will give much needed, increased facilities to the fire department and board of Public works department.

## Obituary.

### MRS. FRANCES A. FRENCH.

Mrs. Frances Ann French, widow of J. W. French, and formerly of this place, died at the Prospect house on Mt. Holyoke Tuesday morning, August 8, after an eight days' illness with peritonitis. Mrs. French was a woman of wonderful force and much executive ability. Since the death of Mr. French in 1891, she has continued the management of the mountain house.

Three years ago a fine addition was built and the hotel is now one of the best mountain houses in the country. Mrs. French was always at the helm herself, and her ideas of hospitality had the flavor of New England at its best. She always made a specialty of the hotel's table, and saw to it that the best of everything was provided. She was personally a charming woman of rare culture and refinement. It was always a pleasure to talk with her. Mrs. French's maiden name was Frances Ann French and she was born at Plymouth, N. H., October 5, 1830. She was married to Mr. French at Andover, July 9, 1849. Two years later, it was July 4, 1851, that the Frenches went up on Mt. Holyoke to live. Mrs. French made the ascent of the mountain on horseback. In those days the mountain was much less ascended than now, and then there was no good road leading to the half-way house. For years the water had to be carried up. The first railroad up the mountain was built in 1854.

Mr. French died June 23, 1891, at 68. His death was a sad blow for Mrs. French, yet she kept on with the responsibilities set out for her and finished her work. The Frenches never had but one child, a daughter, now Mrs. F. E. Bliss of Hartford. The funeral occurred at the First church at Northampton, Thursday, August 10, with burial at the cemetery there.

### JOHN DANAHY.

John Danahy, the son of John and Norah Danahy, died at his home at 13 Baker Lane last Saturday after an illness of ten or twelve days, aged four years and eleven months. Death was brought about by ptomaine poisoning. The little boy's sister died only a short time ago, and his mother is now in a Lawrence hospital. It is thought that all were poisoned while berrying some time past, as they were taken sick soon after. The Board of Health investigated the case, inspecting their home last week, but did not deem it best to take any action in the matter.

The funeral was held Sunday afternoon from St. Augustine's Church. Burial was in the Cemetery of the Immaculate Conception, Lawrence.

### MRS. LYDIA E. ADAMS.

The death of Mrs. Lydia E. Adams, wife of the late Alfred Adams, occurred Wednesday afternoon at 3 o'clock at her residence on Salem Street, from the effects of an internal tumor.

The deceased was 64 years and 7 months of age and is a well known resident of the Holt district. She leaves one son, Charles F. Adams, who is employed by William H. Tucker of North Andover. The funeral was held from her late home Thursday afternoon at 3 o'clock, Rev. Edward S. Pride officiating. Burial was in West Boxford.

## Fire This Morning.

Box 54 was rung in at 10.45 this morning for a slight fire at Chandler's coal sheds on Railroad Street. A still alarm fifteen minutes before had been given and six men went down with a ladder but could not subdue the flames. After a stream was directed upon the blaze it was only a moment or so before the fire was extinguished. Sparks from a locomotive doubtless caused the fire. The loss was slight.

## G. A. R. ENCAMPMENT.

How and When to Go and Cost of Trip to Philadelphia.

The following facts relating to the Grand Army Encampment at Philadelphia next month will interest local comrades and others who are intending to make the trip:

The committee of Needham post, G. A. R., of Lawrence have completed arrangements for the trip which will also hold good for Andover people and, while the Lawrence post will go Saturday afternoon, it may be possible to go any time from the first of September to the fifth.

Following is the itinerary for Needham post which will hold good for others also:

Leave Lawrence, Saturday afternoon, Sept. 2nd, Boston & Lowell station at 4.55 p. m., arrive in Boston at 6.05 p. m.

Leave Boston at 6.45 p. m., Park St. station via Stonington line to New York, arrive in New York at 7 o'clock in the morning. Special annex transfer steamer to station Royal Blue Line, Jersey City, where breakfast can be had.

Leave Jersey City at 9 a. m. running via Bound Brook arriving at Philadelphia at noon Sunday, Sept. 4.

Tickets will be good going from New England, September 1 to 5 inclusive and to return from Philadelphia up to September 13 inclusive except that by deposit of ticket with joint agent between September 5 and 9 inclusive and payment of fee of 50 cents, extension of limit will be granted up to and including September 30.

Of exceptional interest to the G. A. R., their families and friends will be the announcement that the Baltimore & Ohio and the Philadelphia & Reading railroads with their connections will make rates of one fare for round trip from Philadelphia to all essential points of interest reached by and via these lines of which the following are the more important:

Philadelphia to Washington and return, Philadelphia to Richmond and return, Philadelphia to Gettysburg and return, Philadelphia to Baltimore and return, Philadelphia to Washington, D. C., and return, going direct, and returning via Harper's Ferry, Antietam and Gettysburg, or vice versa, Philadelphia to Old Point Comfort and return, via Baltimore or Washington and Annapolis, Philadelphia to Atlantic City and return.

The most attractive trip devised by these lines is one from Philadelphia embracing Gettysburg, Pen Mar, Antietam, Harper's Ferry, Washington, Baltimore, and back to Philadelphia. This trip includes more points of vital interest, both historic and picturesque than any other which could be arranged and will cost fully \$5.85.

In addition to the above all lines out of Washington will make rate of one fare for the round trip to all important battlefields, including Fredericksburg, Ball's Bluff, Manassas, Appomattox, Winchester, Cedar Creek, Strasburg, etc.

The return trip will be made via the B. & O. route to New York and tickets will be honored from New York on all the Sound Lines, including Fall River Line.

Further information can be had from the committee, A. H. Gilman, Lowell Depot, Lawrence, and at the G. A. R. headquarters.

The tickets which will cost \$8 will be for sale at A. H. Gilman's, Lowell Station, also at Post rooms, Wednesday, Thursday and Friday evenings.

## Pollution of Haggetts.

Mr. Editor: It seems that there are "young ladies" of Andover camping on the shore of Haggetts Pond who have no higher sense of propriety than to wade and do their washing in the water of the pond on which most of their fellow citizens rely for their domestic water supply, as was the case Sunday morning. There are laws and regulations to reach such young women as well as the young men who have been caught and punished for wading in the pond and I ask the water board and the police to teach these young women that we have the right to insist on our water supply being unpolluted by either of the sexes.

## WATER-TAKER.

## Vacation School.

The nature work at the Vacation School is most interesting. The boys go into the fields and woods with their teachers and collect insects, butterflies and fishes which they study at school, learning their names, nature and habits and watching their life in Aquaria and glass cases which the boys make themselves. To watch and feed the fishes; to see the busy bees filling the comb with honey, taking care of the Queen bee and driving out the Drones; to watch the caterpillars as they spin their cocoons and then to learn what butterflies come from these various shells, is something which might well be learned by everyone, and to see the bright faces of the boys and hear their eager stories of finding these curiosities is to know that they are interested and happy. Anyone finding specimens which would be of interest or value to the school, will confer a favor by leaving them at the Stowe School any morning except Saturday.

## 20 PER CENT DISCOUNT.

To keep up a hustling business, add to the popularity of their boys' department and make room for fall and winter goods, Bicknell Bros. have marked down a large portion of the balance of summer goods in their boys' department. These lots they have marked down are all good, clean, desirable styles; all new, made this season. The sizes are somewhat broken, but those that are left are just as good as when you paid full price. Now is the time to secure your boy's school outfit at 20 per cent discount.

## A Family Reunion.

The following item was published in the *Arbroath Herald* of July 27th and will be read with interest by Mr. Rogers' many friends in town:

"A very interesting family reunion took place in the Imperial Hotel on Thursday night, when Mr. Barnett Rogers, J. P., Andover, Mass., U. S. A., and Mr. Alexander Rogers, jun., of Johannesburg, entertained their relations. The occasion of both gentlemen being at home at the same time was fit reason for holding a gathering such as does not very often happen, and seldom happens twice in the history of one generation. Mr. Barnett Rogers presided, and in speaking of the occasion of their meeting, referred to the many and great changes which had taken place since he left Arbroath twenty-eight years ago. He was glad to say that he thought these changes were in the right direction; and as he viewed the faces in their family gathering, he felt a complacent pride in the Rogers family, and more especially when he thought of the suspiciousness of the occasion. Mr. Alexander Rogers, jun., also addressed the gathering, and gave a most interesting description of a Transvaal Mining Camp as he had found it during the past few eventful years. Mr. Alex. Rogers, sen., who is the senior member of the family, spoke with considerable feeling of the associations which the gathering revived in his memory, and he gave interesting reminiscences, in which he contrasted the days of his youth with the present days. He felt sure that every member of the Rogers family would retain happy memories of this occasion. Other members of the family also spoke, and delightful vocal and instrumental music by the ladies added charm to the meeting. After cordially thanking Mr. Aitken for his admirable service, the company joined in singing with enthusiasm "Auld Lang Syne." Occasions such as these are of great interest, and we append some of the names of those present:—Mr. and Mrs. Alex. Rogers, sen., Lochland Street; Mr. Barnett Rogers, J. P., Andover, Mass.; U. S. A.; Mr. and Mrs. Downie, Millgate; Mrs. Brand, Fritchfield; Mr. and Mrs. W. I. Rodger and family, Coupar-Angus; Mr. and Mrs. Alex. Rogers, jun., and family, Johannesburg; Mr. and Mrs. Lawrie and family, Rossie Street; Mr. and Mrs. Beattie and family, Dundee; Miss Helen Rodger, Convalescent House; Miss Isabella Rodger, Lochland Street; and Miss Maggie Rodger, Blairgowrie.

## COTTON MILL COMBINE.

FALL RIVER, Aug. 17.—The indications in local mill circles point to the formation of a cotton mill combine, with financial end in New York, which will absorb \$35,000,000 worth of Fall River manufacturing property.

The movement appears to be spontaneous in its origin. It has been felt here for weeks and even months, and promoters seem almost ready to tell all about it.

A short time ago it was believed that the Brayton interests were being drawn more closely together, and these interests control a third of the local cotton industry. There was talk that the balance would be consolidated.

Now it is the understanding that all the Fall River mills are to be brought under one general management. This would effect a saving, it is thought, of \$1,000,000 a year.

This sum is quite an item, in view of the growing southern competition. What adds strength to the belief in the existence of an immediate deal is that much mill stock has changed hands recently at figures which seem surprising on business grounds.

In event of a combine of the mills the prices to be paid for the stock will be based upon the earning capacity of each mill per spindle. A mill trust will be welcomed by many and deprecated by some, but middlemen will view it with distrust until its selling agencies are fixed upon.

JUST AS POPULAR AS EVER.—There is little need to mention the fact that at Hedding during the period of August 19th to 26th, inclusive, a camp meeting service is held, for when an institution has gained such wide spread prominence, as has the Hedding Camp Meetings, it is expected that yearly sessions will be held. As usual, the services will be under able management, and personages of high standing will be present to assist in conducting them. The camping ground has an ideal location and everything essential to make a visit enjoyable. The Boston & Maine railroad has on sale at many stations reduced rate tickets to Hedding for this occasion. Information regarding which can be obtained at ticket office.

Rev. C. H. Farnsworth was the officiating clergyman, 85 Arlington street, Haverhill is to be their home.

## MORNING HEADACHE.

A general feeling of malaise in the morning, accompanied by more or less headache, is well known to most of us. The expression "I've got a head on me this morning," well defines the symptoms which are almost invariably due to retention in the system of a small amount of the uric acid and allied products formed during the hours of sleep and not properly excreted. It is the forerunner of a gouty or rheumatic attack. Tartaric acid is just the remedy for this condition. Two tablets in a goblet of water, noticed will clear the head, start up the action of the kidneys, and freshen one up wonderfully. The dose should be taken before breakfast.

Miss Lilla Young of Lowell is visiting in this city.

During the Civil war, as well as in our late war with Spain, diarrhoea was one of the most troublesome diseases the army had to contend with. In many instances it became chronic and the old soldiers still suffer from it. Mr. David Taylor of Wind Ridge, Greene Co., Pa., is one of these. He uses Chamberlain's Colic, Cholera and Diarrhoea Remedy and says he never found anything that would give him such quick relief. It is for sale by Arthur Bliss, Andover, and C. H. Shattuck, Ballardvale.

## MILLS CLOSE.

The Everett mills will shut down next Saturday for two weeks. The following notice was posted today:

"The Everett mills will shut down on Saturday the 19th inst. for two weeks, resuming work in all departments on Tuesday morning, September 5th.

"This shut down is for the purpose of giving all the employees an opportunity for a two weeks' vacation."

INGERSOLL ON TEMPERANCE.

Address to Jury in Munn Trial.

"I believe, gentlemen, that alcohol, to a certain degree, demoralizes those who make it, those who sell it, and those who drink it. I believe from the time it issues from the coiled and poisonous worm of the distillery until it empties into the hell of crime, dishonor, it demoralizes everybody that touches it. I do not believe that anybody can contemplate the subject without becoming prejudiced against this liquid crime.

"All you have to do gentlemen, is to think of the wrecks upon either bank of this stream of death—the suicides, of the insanity, of the poverty, of the ignorance, of the distress, of the little children tugging at the faded dresses of weeping and despairing wives, asking for bread; of the men of genius it has wrecked; of the millions who have struggled with imaginary serpents produced by this devilish thing. And when you think of the jails, of the almshouses, of the prisons and of the scaffolds upon either bank—I do not wonder that every thoughtful man is prejudiced against the stuff called alcohol."

LYNN Aug. 15.—About 11.30 last night Patrolman John Kane and reserve officer Murray arrested two young men named John Mahoney and James Fitzgerald charged with stealing a team from hotel Nahant. The men were in the team at the time and claimed they were looking for the owner. The prisoners and team were taken to police headquarters.

## DANIEL HARDY DEAD.

Daniel Hardy, the well known octogenarian passed away at his home, 292 Lowell street, Wednesday.

Mr. Hardy was one of the best known citizens of Lawrence. He was one of the pioneer settlers, coming to this city in '46, when it was only a straggling village.

He was a native of Newburyport. In 1844 he married Ann P. Simonton of Portland, Me., who survives him. For over 28 years, Mr. Hardy was in the employ of the Boston & Maine, as freight agent and afterward as ticket agent.

In 1853 and '54, he served in the common council, and in 1866 was a member of the board of aldermen. He served on the school board from 1856 to '70, and again from 1873 to '76.

Mr. Hardy was a strong anti-slavery man and had a personal acquaintance with Garrison, Parker and the other abolitionist leaders. For many years Mr. Hardy had retired from active business, though keeping in close touch with the world about him.

Edward Wasenski, 6 years old, while playing on the banks of the Spicket river, near the Garden street extension bridge, Wednesday afternoon, fell into the water and was drowned.

Joseph Berry, 14 years old, of 3 Middle street, secured the body after diving for it.

The remains were removed to the home of the child's parents, 16 Middle street.

DEATH OF MRS. JOHN F. STICKNEY.

NEWBURYPORT, Aug. 15.—Mrs. Esther Sumner Stickney wife of John F. Stickney died yesterday aged 89 years. She was a native of Newburyport and leaves a large number of kindred. Her husband is in his 95th year and the oldest person in the city. They were married 67 years ago and besides the husband three daughters Mrs. P. H. Blumpey, Mrs. Charles H. Goodwin and Miss Mary E. Stickney survive.

NEWBURYPORT, Aug. 15.—Capt. John E. Mitchell of the schooner Cora M. of Millbridge, Me., coal laden from New York who arrived at the Taylor-Goodwin wharf on Saturday had an experience at the mouth of the river on Thursday and Friday that he does not care to repeat. He had on his boat with him his family consisting of his wife, an invalid, and his little six-year-old daughter, though he was momentarily expecting that his craft would be swept ashore and wrecked he was unable to attract aid from anyone for over 24 hours. In that time the chain on one of his anchors parted, but luckily an additional hawser held, and the deck of his ship was almost continually swept with the waves. During the hard blow of Friday it was impossible he admits, for a tug to have come out to his rescue, but on Thursday he maintains that when he signalled for a pilot his request should have been heeded, and that there would have been no trouble. Moreover Capt. Mitchell declares that on Friday he could see people on the beaches and although he put his colors at half mast the life saving patrol did not launch a boat for him.

ACCUSED OF STEALING.

LYNN Aug. 15.—About 11.30 last night Patrolman John Kane and reserve officer Murray arrested two young men named John Mahoney and James Fitzgerald charged with stealing a team from hotel Nahant. The men were in the team at the time and claimed they were looking for the owner. The prisoners and team were taken to police headquarters.

## S. S. S. GOES TO THE BOTTOM.

Promptly Reaches the Seat of all Blood Diseases and Cures the Worst Cases.

In every test made S. S. S. easily demonstrates its superiority over other blood remedies. It matters not how obstinate the case, nor what other treatment or remedies have failed, S. S. S. always promptly reaches and cures any disease where the blood is in any way involved. Everyone who has had experience with blood diseases knows that there are no ailments so troublesome and difficult to cure. Very few remedies claim to cure such real, deep-seated blood diseases as S. S. S. cures, and none can offer such incontrovertible evidence of merit. S. S. S. is not merely a tonic—it is a cure! It goes down to the very seat of all blood diseases, and gets at the foundation of the very worst cases, and routs the poison from the system. It does not, like other remedies, dry up the poison and hide it from view temporarily, trace of taint, and rids the system of it forever.

Mrs. T. W. Lee, Montgomery, Ala., writes: "Some years ago I was inoculated with poison by a nurse who infected my babe with blood taint. I was covered with sores and ulcers from head to foot, and in my great extremity I prayed to die. Several prominent physicians treated me, but all to no purpose. The mercury and potash which they gave me seemed to add fuel to the awful flame which was devouring me. I was advised by friends who had seen wonderful cures made, by it, to try Swift's Specific. I improved from the start, as the medicine seemed to go direct to the cause of the trouble and force the poison out. Twenty bottles cured me completely." Swift's Specific—

She swings her brasses with a grace,  
That makes my heart to beat  
So fast I fear it's out of place,  
(She cuts the stroke so neat).  
Then from the caddy takes her creak,  
And scores another hole,  
While crimson blushes in her cheeks  
Play havoc with my heart;  
The ball she puts upon the green  
Fills well its destined part,  
And wounds me with a pain as keen  
As blows from Cupid's dart.

The tax rate at Essex will be \$14.80, ten cents less than last year.

The Lynn assessors have found 5775 wheels in Lynn this year.

G. M. Day, secretary of the Lynn Y. M. C. A., since '94 has accepted a call to Syracuse.

Mrs. Cheney mother of Selectman Cheney and Mrs. C. P. Rogers of Byfield celebrated her 55th birthday Thursday.

The annual outing of the grocery and provision dealers of Lynn will take place next Thursday. Salisbury beach is the place selected.

Hannah Dinen of Newburyport sustained a broken ankle on account of trying to alight from an electric car before it had stopped.

The Newburyport firemen are making extensive preparations to entertain the delegates of the state firemen's association next month.

The clam flat war between Gloucester and Rockport has reached such a stage that a line of stakes marks the boundary of the two places.

The Lowell, Lawrence & Haverhill Street Railway Company has been attached by William H. Boley of Haverhill in an action of tort for \$5000.

A boy named McGrath residing in Haverhill shot himself through the right hand Sunday with a 32-calibre revolver. "Didn't know it was loaded" is the cause given for the accident.

The Lynn assessors have completed the bicycle statistics for the year and find that there are 5775 wheels owned in the city. These are all to be taxed 89 cents each and will bring \$5179 into the treasury.

Mrs. Nellie Harris of Lynn has notified the police that she has at her house 8-year-old Kate Gardner, whom she found at the house of Samuel Middleton on the line between Lynnfield and Peabody on Tuesday last.

Thomas Malloy a resident of Middleton for many years is among the missing. This is a second disappearance in that town in the past month. He is thought to be not in his right mind. He is 65 years old and unmarried.

Charles True, alias Webster is under arrest at Newburyport charged with impersonating an officer. True attempted to arrest an elderly couple in one of the cemeteries. The lady gave him her watch to avoid arrest.

A gale of wind Thursday night drove the Lynn & Nahant steamer Chastota into the mud on the flats. There was several passengers aboard and there was considerable excitement. All were safely transferred to the steamer E. W. Rice.

Horatio Nelson Slater, the millowner and manufacturer of Boston and Webster, died at his summer home at Magnolia Saturday afternoon, after a short illness. He was worth \$100,000, it is estimated. He was one of the largest individual mill owners in New England.

Captain Edward Morris of Gloucester has received word from the state department at Washington that the case of the schooner Frederick Gerring, Jr., seized by the Canadian government for alleged mackerel fishing inside the three mile limit, and afterwards condemned by the admiralty court of Canada, will be carried on appeal by the U. S. government to the privy council of Great Britain.

Monday afternoon a collision occurred on the Plum Island road. Three cars were coming toward Newburyport when the middle one seeped suddenly to let off a passenger. The third car was only a short distance behind and before the motorman could stop the electric truck struck the second car. One lady whose name could not be ascertained jumped off and was somewhat injured. Several others were more or less bruised, among the number being Mr. Charles H. Johnson.

A meeting of the school committee was held at committee rooms Monday evening every member being present. The call for bids for furnishing wood for the schools the coming year had not received a very liberal response and the committee voted to extend the time two weeks as it was believed that but few had seen the published advertisement. Notices asking for bids will be posted on the several school houses.

Miss Nellie B. Hill of the Howe school, tendered her resignation to accept appointment elsewhere and another well recommended teacher from Beverly was elected to the position. The latter however has not of course as yet accepted but it is expected she will. It has been currently reported that Miss Alice V. Fletcher one of the assistants in the High school had resigned but such is not the fact and she will return another year. Another meeting will be held before the beginning of the school term.

Word comes of the safe arrival of Mrs. H. W. Field and daughter Miss Anna Field in Dresden, after a delightful ocean trip. Neither were attacked with sea sickness and were therefore able to enjoy the benefits of the sea air.

In Dresden darkness appears about 9 o'clock p. m. and one seldom thinks of retiring before midnight. Breakfast is served at 9 a. m. and three additional meals before retiring. Mrs. Field referred to the excessive heat on the ocean during one day of the trip. It was seemingly as hot as any which she remembered of having experienced ashore.

Officer Harris was notified yesterday that a group which included several suspicious persons were loitering about the premises of Merrimack hall and peering into the shop windows and fumbling about the door of Charles Leong's laundry about 2.30 a. m. wholly unmindful of the fact that he later dryman was in waiting to receive them with a large cleaver did they gain entrance to the shop. The chinaman informed the officer that the men remained about the place until about four o'clock when they departed without notice. The officer will investigate whether people have been unlawfully shadowing the place or if Charlie was riding a "night mare."

Funeral services over Clinton Chickering infant son of Mr. and Mrs. Calvin Rea, were conducted by Rev. Mr. Bradford of Boxford Congregational church Tuesday afternoon at 2.30 o'clock. The pastor had a message of consolation for the family which counted for much in brightening the hour of sadness and sorrow and followed the words with a tender prayer. A quartet of voices rendered appropriate hymns. The little one had the appearance of having nestled among the flowers for a brief rest, so sweet and innocent was his sleep upon the silken couch. A pillow inscribed "Our Baby" was the family tribute, and the little casket was accompanied with floral offerings from neighbors and friends. The attendance of neighborhood sympathizers was large. The body was taken to Ridge-wood cemetery and with a committal service was placed in a grave lined with greenery.

## Obituary.

### TIMOTHY SULLIVAN.

Sinking peacefully to rest at 4.30 o'clock Saturday afternoon, Timothy Sullivan closed a residence of thirty-six years in this town. Years fraught with honest toil and given to founding a home for his family. Sixty-nine years ago deceased, the oldest son of John and Bridget (Doyle) Sullivan was born in Waterford, Ire. Nearly a half century ago he came to the sea and located in Great Falls, N. H. While at work there he met Miss Ellen Hannon, whom he married Nov. 12, 1858. Five years later he came to this town which since has been home to him. During the time of active labor here until about 12 years ago he held the position of section foreman on the western division of the Boston & Maine railroad. Within a few years however when able to work he has been obliged to find employment less severe in nature. In January he experienced an attack of rheumatism which affected a sciatic nerve and this ailment has increased in severity since and finally resulted in death. For three months Mr. Sullivan had been confined to the bed and Saturday morning there came a change which indicated that the end was near. He was conscious to the last and entered where peaceful shadows dwell as gently as the child falls asleep. Other than the widow eight children survive: Mrs. John O'Neil, Concord, N. H.; Mrs. William Barrett, Lawrence; John, Mary, Katherine, Edward, Hannah and Timothy Sullivan of town. John and Edward are married. With messages of condolence and neighborly sympathy for the sorrowing a large number of people called yesterday and looked for the last time upon the quiet face. It was especially noticeable that many of the young people and children appeared to have lost a friend. The last services were held in Michael's church at nine o'clock this morning conducted by Rev. M. T. McManus. The funeral was largely attended by relatives and friends. Among the floral tributes were a raised star inscribed "Father" from the children and a spray of roses from the youngest grandchild Winifred Sullivan. At the close if the service Maurice J. Mahoney rendered the favorite selection "I love to hear my Saviour's voice." The interment was in the Immaculate Conception cemetery, Lawrence. Messrs Thomas and Michael McManus of Portsmouth, N. H., and John and Michael McCarthy of Dover, N. H., were bearers. The former were cousins of Mr. Sullivan and the latter cousins of Mrs. Sullivan.

## Wedding.

### MOODY-STEVENS.

The home of Mr. and Mrs. George Stevens, on Main street, was in gala attire Thursday afternoon in honor of an important event in the family circle. It was the occasion of the marriage of their elder daughter, Miss Minnie Emily Stevens, and Albert Gardner Moody son of Horace Gardner Moody of East Rochester, N. H. In imagination the bell of pure white asters, suspended in the alcove of the front bay window, had but a little before chimed the hour of 1 o'clock, and the melody from Wagner's celebrated "Lohengrin" began to float through the rooms, ere a rustle on the stairway indicated the approach of the bride and the groom. They were attended by George F. H. Moody of Rochester, N. H., a younger brother of the groom, as groomsmen, and Miss Annie L. Stevens, a younger sister of the bride, as bridesmaid. With measured pace, they passed through the hall, through the parlor to the east bay window, richly adorned with a setting of rubber plants and trailing vines, which made a bower of greenery. Beneath the joyful bell of blossoms the marriage vows were made and sealed with a ring. The bride wore a becoming gown of white Swiss Muslin, cut en traine, with trimming of lace and white silk ribbons. She carried white bride's roses, and wore buds of the same in her hair. The gown of the bridesmaid was pink madras, adorned with lace of white and ribbons of pink. Her blossoms of pink were her chosen flowers.

Ribbons of white in the hands of Miss Anna Well and Master Taylor Well indicated the pathway to be taken and made the way to the marriage place easy. The wedding march was rendered by Prof. Edward Butterworth. The ceremony was performed by Rev. Henry Elbert Barnes, D. D. A season for the expression of well wishes and congratulatory messages and general planter was afforded immediately after the ceremony and during the interchange of greetings, refreshments were served. At a convenient season, the bride retired from the scene of animation and donned a modish travelling costume of brown, trimmed with blue silk, returned to take leave of the guests. The leaving taking, of course, was not without its "little difficulties," as is usual in such cases, and the little grains of rice and other friendly missiles made the departure the more interesting to those who remained behind. Dr. Fred Stevens Smith, the bride's cousin, was the usher. About 75 were present as guests and represented Providence, R. I., Portland, Me., Waltham, Malden, Lawrence, Haverhill, Berwick, Me., and other places. The home decorations were very tasteful. The front hall was adorned with palms and vines and elsewhere were garlands of garden and field blossoms, goldenrod being conspicuous. The gifts bestowed upon the bride were numerous and chosen with care. The array included silver, cut glass, china, a brass, furniture, linen, ornamental and useful articles. The especial gift of the groom was a breastpin, studded with pearls and onals.

Mr. and Mrs. Moody left on an eastward bound afternoon train and after a brief tour through Maine will be "at home" at the residence of the bride's parents on Main street, after Sept. 1.

Alvin Drew left town last evening for Hampton beach, N. H. where he has accepted a position at Boars Head hotel for the season.

Mrs. Laura Phelps, Mrs. Chandler, Miss Annie Stoddley and Miss Mabel Hannaford, enjoyed a trolley trip to the Pines recently.

Mrs. James Thomson and family are to occupy Adams cottage, on Main beach and left town today. Mr. Thomson will spend Sunday at the beach.

Granville E. Foss, Jr., and Mr. Symonds and guests attended the clabake and hop at the Merrimack Valley Country club house, Methuen, last evening.

Mrs. William Moulton of Manchester, has been spending a few days at the home of her parents Mr. and Mrs. James Woodhouse. She will return home tomorrow accompanied by her sister Miss Lena Woodhouse.

Mary Wilkinson, a former resident, is on a 12 days' trip to Niagara and other places with relatives, from Hartford, Conn., and has accepted a position to teach in a kindergarten of that city on her return. She graduated with Miss Belle Manahan from Miss Wheelock's in Boston last June.

"WAY DOWN EAST"—The personation of the heroine Anna Moore, in "Way Down East" given by Miss Davies, is almost a revelation. When Miss Davies stepped upon the scene in a simple black gown and seemed to be shyly trying to avoid occupying the centre of the stage the first night audience contemplated her curiously. But she displayed such true adherence to noble methods in depicting the character of a wronged and sorrowful woman and emphasized it with such a remarkable expression of pathos that he curious soon discovered that they were beholding a really wonderful piece of acting.

"Way Down East" is essentially a woman's play for it compels the homage of tears while it is not lacking in sunshine. One of our most eminent critics himself a dramatist of distinction has expressed the opinion that "Way Down East" is a far better play than "The Old Homestead" and quite as good as "Shore Acres." It was the enormous success from a popular standpoint. The clergy commended it as a wholesome sympathetic play with a strongly emphasized moral. "Way Down East" begins the season at the Tremont theatre Aug. 28, with the same cast as last year.

## WHAT'S HIS ADDRESS?

"Doctor," said the Cincinnati woman. "I want you to examine my husband as to his sanity." "What reason have you for thinking him insane?" asked the doctor. "He is offering odds that the Cincinnati baseball club will win the pennant." Was the mournful reply.—Chicago News.

### Lowell Mohair 92, Andover 25.

The local team had a decidedly off day last Saturday and as a result was most decisively beaten by the Mohair C. C. of Lowell 92 runs to 25. The visitors batted first and Hird and Southam defied all efforts of the Andover bowlers to effect a separation. The former played beautiful cricket and his score of 53 is the highest on the local crasse this year. The rest of the team did not do much. The first three batsmen scoring 74 of the 92 runs. J. Kydd, one of the home team's youngest players had the best average with the ball, taking 3 wickets for 7 runs. The fielding of the locals was very smart, good catches being taken by Bruce, MacDermott and Mathew.

The inning of the home team was a mere procession, the bowling of Hird and Aveyard, though seemingly easy, being too much for them. Saunders had the highest score, seven. The total was only 25, a defeat by 67 runs.

Riders on the late electric cars from Lawrence often see some strange and somewhat shocking performances. These are some of the sights that one person noticed last Sunday evening: a well known young woman reclining gracefully on the shoulder of her escort; two other couples, the young men, who were strangers, with their arms about the waist of the two girls; and a girl bicyclist scorching along on a diamond framed wheel, with more rapidity and display than elegance. For shame, girls.

"I thought the doctor said she ought to go to the seashore."

"He did, but the siege of sickness she had made her so thin that she said she knew she'd look like a perfect fright in a bathing suit, so she went to the mountains instead."—Brooklyn Eagle.

## A JOCKEY FOR 80 YEARS.

Charles Taylor of White River Junction who drove Robert B. 2.21 1-2 at the Rutland races last week is 93 years old and has probably been driving race horses longer than any other man now in the business. In the course of conversation with a Herald reporter he said: "I have been racing horses for over 80 years. I was born in Canada and my father taught me to ride running horses when I was about 10 years old. That was before they began to have races in harness. About 30 years ago I started in to drive a horse in harness and I remember being the first man to drive a horse a mile in three minutes in Montreal. It was at a kind of fair there and the people cleared the tracks to see me try to do a mile in three minutes. The track was not much like your track here. It was a turf track with the grass shaved close. It was awfully slippery and the race horses had heavy shoes on with winter corkers. I drove in what we called a cart. It weighed 300 or 400 pounds and would hold four people. The harness weighed about 75 pounds. I should think, and had a collar and hames. We didn't think a breastplate was safe. Well I made the mile in three minutes and the crowd went wild. It was confidently asserted that the record I made there would never be beaten. We bought that horse for about \$25. He had no regular name like your driving horses now but we used to call him Black Moll around the barn. We began using sulkeys about 70 or 75 years ago. The first sulky I had weighed about 175 pounds. It had wheels over six feet high and the seat was made on strips of wood nailed to the thills at one end.

## A MOTHER TELLS HOW SHE SAVED HER LITTLE DAUGHTER'S LIFE.

I am the mother of eight children and have had a great deal of experience with medicines. Last summer my little daughter had the dysentery in its worst form. We thought she would die. I tried everything I could think of, but nothing seemed to do her any good. I saw by an advertisement in our paper that Chamberlain's Colic, Cholera and Diarrhoea Remedy was highly recommended and sent and got a bottle at once. It proved to be one of the very best medicines we ever had in the house. It saved my little daughter's life. I am anxious for every mother to know what an excellent medicine it is. Had I known it at first it would have saved me a great deal of anxiety and my little daughter much suffering.—Yours truly, Mrs. Geo. F. Burdick, Liberty, R. I. For sale by Arthur Bliss, Andover, C. # Keystone Gelatine

SILVER WHITE

Possesses every quality that gelatine should have. Its perfect purity and cleanliness are apparent as soon as you open the package. Its convenience is evident the minute you dissolve it (dissolves readily and quickly in hot water—making a clear, firm jelly). The most prominent chefs praise and have written many recipes for Keystone Silver White Gelatine. Leading cooking authorities indorse its purity and convenience; experienced housewives appreciate its great economy—package makes one-third more jelly than the same quantity of any other gelatine.

Ask your grocer for Keystone Silver White Gelatine. If he does not sell it send us his name and we will mail you a free sample package and recipes, by famous chefs. Full size box mailed for 15 cents.
